Ohio State University, Columbus, OH

May 20XX

Bachelor of Arts in Information Science | Minor in Information Technology

EXPERIENCE

Digital Accessibility Intern

Ohio State Student Life Technology | Columbus, OH

September 20XX – Present

- Collaborated with web designers and instruction designers to create experiences that are fully accessible to all learners
- Led a team of 3 interns in designing new content for D2L hybrid learning courses for the Housing and Residence Education
- Managed and analyzed a student questionnaire measuring user friendliness and accessibility of current online systems to inform best practice when developing and evaluating content
- Advocated for student users with all levels of ability to demonstrate the need for online course content to be reviewed and updated

Information Technology Intern

LMI Aerospace | St. Charles, MO

May 20XX – August 20XX

- Provided computer system and software assistance to employees via phone, email, and in-person
- Logged conversations and computer problems, offering immediate solutions, researching the issues, and referring to professional IT staff as needed
- Measured performance of computer operating systems and software by tracking metrics to ensure productivity and usability

UX Design Intern

Encephalo Investments | Minneapolis, MN

June 20XX – August 20XX

- Identified market trends and brainstormed how to implement new experiences and methods
- Received and reviewed customer feedback to analyze the success of current systems to find unique investments for users
- Assisted in designing a mobile app for the company in conjunction with a team of 5 designers and interns that led to a 20% increase in customer engagement
